February 23 - March 1

Team Members
Alec Harrison — *DevOps*
Caleb Olson — *UI/Database*
Daniel O'Neill — *Testing Engineer*
Mitchell Bennett — *Communication/Inventory Filling*
Thomas Wesolowski — *Project Manager*
Thomas Staudt — *UI/Testing*

Summary of Progress this Report
- Alec Harrison
    - Got Doll's DB and App running on http://18.213.218.200/.
    - made it easy to update via git cli.
    - Started to do some research on best practices for navbars on mobile and desktop.
- Caleb Olson
    - added an admin field to the database, modified seeders and migrations to put that field in.
- Daniel O'Neill
    - Got Doll's SMTP credentials set and got them running with the email service.
    - Got example of their current invoice to be able to create our template on what it will look like to the customer and representative.
- Mitchell Bennett
    - Scraping Brand finder for product IDs and Brand finder IDs in order to link them more correctly.
- Thomas Wesolowski
    - Developed "browse" page, integrating BrandFinder application into the website
    - Started work on cart quick-add feature for browse page
- Thomas Staudt
    - Got the admin page to display all usernames for all users in the database.

Plans for Upcoming Reporting Period
- Alec Harrison
    - Work on cleaning up the Nav bar it looks rough with the admin branch.
- Caleb Olson
    - Get direct access to the database to manuat insert admin users.
    - Work on additional admin privileges.
- Daniel O'Neill
    - Get the email formatted to the new invoice template and be able to finish this function of the project, adding the skeleton for emails elsewhere.
- Mitchell Bennett
    - Help with integration of this into our system.
- Thomas Wesolowski
    - Assist Danny in providing Email functionality
- Thomas Staudt
    - Work on displaying other user information, and enable admins to change other user's information.
